

Extreme Networks Technical Training Program - Certifications

The **Associate** certification is the entry into the Extreme Networks certification program. Students achieve the Associate level of technical certification by completing one of our Fundamentals level courses.

The **Specialist** designation demonstrates an achieved working knowledge of a specific technology and is the first step on the path to achieving either Expert or Architect level certifications.

The **Expert** certification demonstrates advanced knowledge and capabilities with Extreme Networks products and solutions.

The **Architect** certification demonstrates a mastery of Extreme Networks product and solutions. This is the highest level of Extreme Networks technical certification.
